PROFILE

I am creative and persistent. I'm self-motivated, adaptable, and communicative. I'm a highly-organized and responsible person ready to participate in teamwork. I am always enthusiastic about learning new skills and improving the acquired knowledge. In addition to school projects, I create my own personal projects. In my spare time, I like to paint and read books.

EMPLOYMENT HISTORY

Quality Assurance Intern, YouTestMe

Belgrade

May 2020 — Aug 2020

My daily task included testing web application and reporting bugs on Bugzilla. In the work log, I kept records of my tasks and deadlines. I organized and prioritized work to complete assignments in a timely, efficient manner.

Belgrade

Oct 2017 — Nov 2020

Course: *New computer technologies*

High School of Economics

Belgrade

Sep 2013 — Jun 2017

Course: *Banking clerk*

PROJECTS

Web application and database implementation of a tourist agency

Aug 2020 — Oct 2020

The tourist agency web application was a part of my undergraduate thesis. The web application is created using Java, Spring Framework (MVC), Hibernate, and Maven. The application is connected to the MS SQL Server database.

The main part of the application is booking travel arrangements. There are two roles: Administrator and Client. This functionality is implemented by Spring Security.
